

Hotsy Cleaning Systems

The #1 name in Industrial Pressure Washers

Introducing our very own **PCW** cold water pressure washer

Electric powered

Easy Mount Installation: Our bracket has 4 lag bolt holes spaced 16" off-center to allow for a quick and easy installation

Hotsy Triplex Pump – This industrial grade pump makes this the last pressure washer you'll ever have to buy. Designed for rugged industrial applications, this pump is built to last and fully supported by your local Hotsy Service department

Down stream detergent system comes standard. Your low pressure pre-soak works with a special hi-low adjustable nozzle so you can quickly apply your preferred Hotsy soap to whatever you wash!

Hotsy duplex, direct-drive, positive-displacement pump carries a seven-year warranty on the crankcase and features NESTechnology with U-Seals for longer life.

One Switch Cleaning - The rule of thumb in our industry is that the easier you can make it to clean, the more cleaning will get done. Well, with the PCW it doesn't get any easier; simply hook up your gunjet, flip the switch, and you're good to go!

Compact design - Don't waste space in your garage or shop, the PCW mounts to the wall and keeps your washer, hose, soap, and lance all within a small portion of wall space!

Hose Reel included so you don't have to worry about the heavy wire-braid hose getting tangled up and dirty

75-ft. length of Hotsy high-pressure hose is included so you can wash your vehicles with ease, as well as your driveway, patio, etc. Worried this might not be enough? Easily couple in a 50' extension!
